SUMMARY

Entry level Product professional with hands-on experience leading 0→1 product development, driving customer discovery, defining product strategy, and launching MVPs. Skilled in product analytics, Agile execution, stakeholder management, and translating user insights into scalable digital products.

EXPERIENCE

• Merchow

May 2025 – Present

Product Lead(Founder-led team)

Remote / Mumbai

- Built **Merchow.com** from **0→1**, owning the end-to-end product lifecycle from ideation, roadmap definition, and Figma wireframes to MVP launch.
- Conducted **10+ user interviews** to validate customer pain points, translating insights into product requirements that increased user engagement by **35%**.
- Managed the end-to-end implementation of the **API**, automating 100% order routing and significantly reducing manual operational effort.
- Led a **5-member cross-functional engineering team** across Agile sprints, managing backlog prioritization and ensuring on-time MVP delivery.
- Implemented **product analytics** to track user behavior, identify friction points, and drive data-informed product improvements.
- Designed and launched a **store personalization module** to improve merchant customization and enhance the overall storefront experience.
- Established a continuous beta feedback loop, collecting feedback from **20+ beta users** to iterate on features and improve product usability before full-scale release.
- Experimented with onboarding and storefront UX improvements using user feedback and behavioral analytics to optimize product adoption.

• DHPP, SJVN

June 2024 – July 2024

Operations

Himachal Pradesh

- Reviewed **20+ component specifications** with senior engineers to verify compliance with operational standards.
- Assisted in **5+ safety inspection rounds** across plant assets, supporting health, safety, and regulatory compliance.

PROJECTS

• Escents Fragrance E-Commerce Platform 📄

Aug 2023 – Nov 2023

Product / UX Design

Web

- Architected the complete visual layout and dark-themed aesthetic for a premium fragrance e-commerce storefront
- Redesigned the product discovery journey by introducing a **"Find My Scent"** recommendation flow informed by user interviews, simplifying selection and improving conversion at key funnel stages.
- Drove a **5× revenue increase (Rs.10K → Rs.50K/month) in 2 months** by optimizing the purchase journey, prioritizing high-impact feature enhancements, and iterating features based on customer feedback and behavioral insights.

• All TET previous year question (App) 📄

June 2022 – July 2023

Product Lead / Interface Design

Google Play Store

- **Owned UI/UX strategy** for a mobile platform, securing **10,000+ organic application downloads**.
- **Architected Figma prototypes** to optimize **core onboarding flows**, reducing **user drop-off by 20%**.
- Analyzed app store feedback trends to define a targeted, data-backed product feature roadmap.

EDUCATION

National Institute of Technology (NIT), Hamirpur

Sept 2021 – May 2025

Bachelor of Technology in Mechanical Engineering

PROFESSIONAL SKILLS

Product Management: Product Lifecycle Management, Product Discovery, Product Roadmapping, Feature Prioritization, MVP Definition, User Story Mapping, A/B Testing, Stakeholder Management, Requirements Gathering, PRDs & Acceptance Criteria.

Tools & Frameworks: Figma, Jira, Confluence, Mixpanel, SQL, Excel, Adobe Illustrator

Soft Skills: Leadership experience, Collaboration, Problem Solving, Data-Driven Decision Making

AI & Product Tooling: AI-Assisted Product Workflows, ChatGPT, Cursor, Claude, Lovable, v0.
